Hi Tom,

Was good to chat with you yesterday to better clarify (hopefully!) things. I'm also adding this most recent PE letter to give you an idea of how content in PE packages is extracted to feed into the analysis of this product. Specifically, please refer to Appendix 3 (page 20) of the document to give you an idea of how workplan projects from the narrative section are incorporated into the PE letter. This report then serves as a snapshot of NEP's collective efforts during the PE cycle.

Let me know if you have additional questions.

Vince

Tom,

Thanks for getting back to me. Tomorrow starting at 3pm EDT, I'm catching a train but I plan to continue working after 4 pm EDT.

Will anytime after this work for you and Karina? You can call my cell (757-338-0303) or I can call one of you or conference in, whichever works.

Thanks,

Vince
